HELENA, MONTANA 59620-0135

To: All Agencies
From: Jeannie Lake, Contracts Officer
Date: August 16, 2013
Subject: Pre-Requisition Forms – 2014 Model Vehicles

Included are the standard vehicle specifications and pre-requisition forms for all model year 2014 vehicles. Please use these forms only. Police pursuit vehicles are not included in this information.

CAFE Ratings.

Vehicle groups have been modified to meet the Corporate Average Fuel Economy (CAFE) Standard as appropriate. Some vehicles, regardless of specification changes, will not meet the fuel standards defined in 2-17-416, MCA (i.e. various pickup trucks, sedans and SUV's). Agencies are asked on each line of the pre-requisition forms if the vehicle(s) they are purchasing meet the allowable exemptions in 2-17-416, MCA, if an exemption is being taken. The CAFE Standard applies to all vehicles with a Gross Vehicle Weight Rating (GVWR) under 8,600 lbs.

All new vehicles purchased after January 1, 2008 must comply with 2-17-416, MCA. Groups that do not meet the CAFE Standard are clearly noted on each group specification sheet. In order for an agency to purchase vehicles that are excluded from 2-17-416, MCA, the agency must state an exemption as listed below:

- (a) Vehicles that are used primarily in off-road use;
- (b) Vehicles used for road construction and maintenance;
- (c) Vehicles used for maintenance, construction, or grounds keeping;
- (d) Vehicles used primarily for moving and distributing large items or a large quantity of items;
- (e) Vehicles with a manufacturer-stated seating capacity of more than six persons; or
- (f) Vehicles using (not merely capable of using) alternative fuels.

For more information on 2-17-416, MCA go to the following websites:

<http://leg.mt.gov/bills/mca/2/17/2-17-416.htm>

Vehicles with a gross vehicle weight rating of 8,600 and over do not have a CAFE Rating. **The federal CAFE ratings can be found on the following website:**

<http://www.fueleconomy.gov/feg/download.shtml>

Life Cycle Costing Formula.

For every group in which there is an established EPA rating, the State will apply the EPA Life Cycle Costing Formula prior to determining lowest bid price. The Life Cycle Costing formula calculates the cost of fuel over the course of 100,000 miles. The cost of the fuel is then added to the bid price and the award is made to the lowest overall cost. This applies to all vehicles with a GVWR under 8,600 lb.

$[100,000 \text{ miles} \div \text{EPA Rating}] \times \$3.50 \text{ (Gas)} + \text{Bid Price} = \text{Total Evaluated Cost}$

Bidders must use the website as listed below to obtain the EPA rating:

<http://www.epa.gov/autissions>

Minimum Mileage Guidelines.

The Department of Administration has adopted a minimum mileage guideline for owning or leasing a state vehicle. This guideline sets the minimum mileage required for executive branch agencies.

Website:

http://www.mdt.mt.gov/other/equip/external/fms/MINIMUM%20MILEAGE/MINIMUM_MILEAGE_GUIDELINES_DOA.PDF

Please note that all vehicles come equipped with the standard equipment listed under section 10.0 – General Specifications and the additions on each individual pre-requisition form. Agencies may add to or delete from the specifications as needed. ***Engine Specifications have been provided at the end of this document for your reference.***

All requisitions must be submitted to the State Procurement Bureau by **September 13, 2013. Please submit one group of vehicles per requisition.**

If you have any questions, please contact Jeannie Lake at (406) 444-0110 or jeannielake@mt.gov.

Vehicle Ordering Process/Instructions

1. Submit a “requisition form” to the State Procurement Bureau.
 - The form must be complete with a requisition number, shipping and billing address, and authorized signature. Different shipping or billing locations require a separate requisition. Requisitions for multiple vehicle types can be combined on one requisition form if the billing and shipping information is the same for all vehicles.
 - Requests must include a detailed justification for the purchase of the vehicle. Justification must include: proposed use; replacement or new vehicle; description of vehicle being replaced, including mileage, condition, if it is a totaled vehicle, etc.
2. Complete and attach the “pre-requisition form” to the requisition form. Do not alter the options on the pre requisition form. All preapproved standard options are listed on the form for each vehicle group. Options that are not listed must be approved by State Procurement Bureau prior to submitting the requisition and vehicle request form. Options that are not standard to a fleet vehicle may not be approved.
3. Each bidder will provide a manufacturer build sheet, which shows all standard equipment and options on the vehicle at the time of their bid response. The build sheet will typically show a white vehicle for bidding purposes. Agencies will choose the interior and exterior colors of the vehicle within 5 days of the purchase order issue date and be responsible for communicating those choices with the dealer.
4. After the bid opening, the low bid that meets specifications will be sent to agencies for review. Agencies must send an email with approval for the State Procurement Bureau to issue a purchase order.
5. Any changes to the purchase order must come through the State Procurement Bureau and documented with a purchase order adjustment. If the awarded vendor contacts the ordering agency regarding delivery delays, failure to fulfill an order, or any requested change to the vehicle, contact Jeannie Lake at the State Procurement Bureau immediately. Send the information by email to JeannieLake@mt.gov.

STANDARD VEHICLE SPECIFICATIONS

GENERAL TERMS AND CONDITIONS

Bidders must submit a firm date of delivery after receipt of order. Failure to deliver within the specified time may result in removal from the list of vendors on file in this office.

All vehicles shall be new, from current production and shall be in first-class running condition. **Dealer demonstration models are not acceptable!** All parts required to construct a complete working unit, shall be furnished on each vehicle, whether herein stipulated or not. All equipment classified as "standard" shall be furnished and included in the purchase price of each vehicle bid.

Pre-delivery service and inspection certificates, signed by the manufacturer or the manufacturer's local authorized dealer, must be furnished with each unit delivered to the State before payment can be made.

A single copy of all vehicle "factory invoice sheets" listing equipment and accessories will be required with each vehicle at the time each unit is delivered. Prices are not required to be listed on the factory invoice sheet.

Do not include FEDERAL EXCISE TAXES when bidding. The State of Montana is exempt from this tax. EXEMPTION CERTIFICATES will be furnished in lieu of taxable amount upon request.

All units shall be awarded on the basis of BONDED-CARRIER DRIVE-AWAY AND MUST BE LOADED OFF GROUND at dealer's location, but may be driven to the F.O.B. Delivery Point. Units driven or towed from the factory to the destination WILL NOT BE ACCEPTED. The State reserves the right to reject vehicles delivered with over three hundred miles.

Trucks requiring mounting of a dump or other type of body may be driven from dealer's location to an installation point in Montana, where the body can be mounted and then delivered to the final destination.

1.0 SCOPE

- 1.1 Provide and deliver F.O.B. agency location in Montana specific vehicles as detailed herein.

Please note that although each group carries its own specific requirements, Sections 10.0 through 10.4 apply equally to each respective group unless otherwise noted.

2.0 APPLICABLE STANDARDS (all standards referenced shall be of the most current revisions.)

2.1 Government

- a. Federal Motor Vehicle Safety Standards (FMVSS)
- b. Environmental Protection Agency (CAFE)
- c. State of Montana Motor Vehicle Code (MMVC)
- d. Montana Occupational Safety and Health Administration (MOSHA)

2.2 Industrial

- a. Society of Automotive Engineers (SAE)
- b. Tire and Rim Association (T&RA)

3.0 QUALITY ASSURANCE

- 3.1 Mandatory U.S. Government requirements shall apply to all units ordered using these specifications, such as FMVSS and EPA, which are current and applicable at the scheduled manufacturing and/or assembly period. The units must comply with all applicable State of Montana motor vehicle codes.
- 3.2 The apparent silence of any specification or supplemental specifications, or the apparent omission of a detailed described herein, shall be inferred to denote that only the best commercial practice is to prevail and that only materials and workmanship of first quality are to be used.
- 3.3 **ALL DEVIATIONS FROM THE REQUIREMENTS LISTED HEREIN MUST BE SO STATED ON THE RETURNED BID.** Unless stated otherwise by the bidder, the State of Montana will assume that all of the requirements have been met and shall hold the bidder responsible for adhering to each listed specification.
- 3.4 Heavy duty, as applied to these specifications, means that the item to which the term is applied shall be the heaviest duty available.
- 3.5 All units shall be of standard production and shall be completely prepared for customer delivery through the selling dealer prior to acceptance by the State.
- 3.6 All units offered against these specifications shall be of identical style, quality, and appointment as those offered to the public during the course of the model year.
- 3.7 All accessories listed herein shall be identical to those regularly supplied to the dealer by the original equipment manufacturer and shall be of identical quality and design as those normally installed on vehicles for sale through normal commercial channels.
- 3.8 All items are to be factory installed. If factory installation isn't available, "dealer installation" must be noted on the bid. Dealer installation is subject to acceptance by the State. Failure to document "dealer installation" may result in rejection of the bid.
- 3.9 During the warranty period, orders for urgently needed replacement parts shall be filled within seven (7) working days. The State shall not be charged for transportation and communication expenses incurred by

the supplier when expediting delivery to meet this requirement.

- 3.10 In the event of a conflict between these specifications and other requirements, these specifications shall prevail.

4.0 WARRANTY

- 4.1 The manufacturer shall provide a warranty on the unit(s) purchased which is current to the industry but not less than three years or 36,000 miles and a 60,000 mile power train warranty, in duration from the point-in-time the unit(s) is put into service by the State of Montana. A signed Warranty of Service Policy that will be honored at any manufacturer's authorized dealership must be furnished for each vehicle. All charges covered under warranty shall be paid by the manufacturer of the vehicle being serviced.
- 4.2 The manufacturer's warranty, as stated in Section 4.1, must be honored by all franchised dealers of the units purchased by the State of Montana.
- 4.3 Warranty adjustments will be made promptly within the agreed warranty period. Any malfunction of parts, or failure discovered beyond the stated warranty period, which is reasonably attributed to a manufacturer's fault, will be subject to corrective action on a cost-sharing basis at an agreed percent of sharing.
- 4.4 The vendor and/or manufacturer will not be held liable for delivery delays caused by strikes, Acts of God, illegal acts by public disturbances, or demands placed by the U.S. Government in national emergencies.
- 4.5 In an emergency, if the vendor or authorized dealer is unable to furnish a serviceman and parts and make necessary warranty repairs within a three day period, the State may elect to have emergency repairs made elsewhere and hold the damaged parts for the vendors' or dealers' inspection, together with sufficient documentation, to justify or verify the repairs. The dealer, or factory, shall reimburse the State for all costs related thereto (including travel time).
- 4.6 If the in-service date of the vehicle will exceed 30 days from delivery, the vendor shall be notified in writing by the ordering agency indicating the "in-service date", as stated in Section 4.1, not to exceed six months from date of delivery.
- 4.7 Vehicles are to be F.O.B. Destination as indicated on bid sheets.
- 4.8 Vehicles must have a minimum of five gallons of fuel when delivered.

5.0 FUTURE PURCHASES

- 5.1 The bid price will remain in effect for the duration of the model year production and within the manufacturer's capacity to produce the units. The State may place additional orders for vehicles from the prices established as a result of this bid.
- 5.2 The prices established from this bid may be extended to other political subdivisions within the State of Montana solely at the vendor's discretion. The State of Montana will not issue authorizations or purchase orders.
- 5.0 The bid price is based on the F.O.B. location stated for each item listed herein and must be honored for all additional items ordered per the terms of this solicitation. Freight charges, as stated below, will be added to all additional orders that request delivery to a different city or town than is listed for that item. Mileage will be determined by using the Montana Official Highway Map issued by the Montana Department of Transportation.

Cost per Mile for Freight Charges: \$_____

6.0 PRE-AWARD CONFERENCE

- 6.1 Prior to the preparation of the purchase order to the lowest qualified bidder, a review may be made of the specifications and vendor's data to ensure that the specifications have been met. The conference will be held at a location chosen by the ordering agency (Department).
- 6.2 Upon agreement between the successful vendor and the Department, and with concurrence from the Department of Administration State Procurement Bureau, the purchase order will be issued.

7.0 COLOR

- 7.1 Standard manufacturer's color (s) will be selected by the agency after award. Ordering agencies must contact the vendor for color selection. Ordering agencies will notify the vendor of the color choice within five business days.

8.0 PAYMENT

- 8.1 Units delivered to the agencies will be visually inspected for specification compliance. Units visually meeting specifications will be paid in full. Units not meeting specifications may receive partial payment on a unit-by-unit basis or may be rejected entirely.
- 8.2 ***Build sheets are required to be attached to each bid line item with bid response. Failure to provide build sheets may result in bid disqualification. In the event of any conflict or discrepancy between the submitted build sheet and the vehicle specifications, the vehicle specifications shall prevail.***

9.0 REPORTS

If requested, the successful vendor(s) must supply to the State Procurement Bureau a "Status/Delivery Report" for all orders by **December 15, 2013**. This report must include the State of Montana's purchase order number, agency name, vehicle model, delivery status and delivery date or anticipated delivery date. Failure to supply this report may result in removal from the State's vendor list for a period of three years.

10.0 GENERAL SPECIFICATIONS - ALL VEHICLES

The following items are to be included as standard equipment on all vehicles unless otherwise specified:

- 10.1 Cooling System
 - a. Engine cooling Heavy duty on all units with air conditioning
 - b. Anti-freeze Shall be a 50/50 mix
 - c. Engine heater Block type **ONLY**
- 10.2 Electrical
 - a. Battery Maintenance free, minimum 438 CCA
 - b. Alternator Minimum 80 AMP (sedans and wagons)
Minimum 95 AMP (all others)
- 10.3 Tires and Wheels
Four standard size wheels and tires, all season radials
STANDARD PRODUCTION SPARE-ALL VEHICLES
- 10.4 Other -
 - a. Bumpers-front and rear
 - b. Glass-tinted throughout
 - c. Speed control
 - d. Mirrors-dual low mount

- e. Steering-power
- f. License plate holders-two (exception: cab and chassis units-one license plate holder)
- g. Air conditioning
- h. Tilt steering wheel
- i. Intermittent wipers
- j. Dual air bags-mandatory

11.0 DELIVERY AND PERFORMANCE

11.1 All vendors must acknowledge receipt of all purchase order(s) by signing on the signature block provided and faxing it to the State Procurement Bureau at 406-444-2529. Failure to acknowledge purchase order(s) within ten (10) calendar days may be grounds for cancellation. Failure to deliver any vehicle may result in the vendor having to pay the State the difference between their bid and the next low bid and/or all actual damages incurred due to nonperformance along with the risk of being removed from the State's vendor list for a period of three (3) years.

11.2 Units delivered must meet or exceed all specifications.

11.3 The delivery schedule is as follows listed below:

All Passenger Cars & ½ Ton Pickups	120 days ARO, unless otherwise stated.
All Minivans (Cargo and Passenger)	120 days ARO, unless otherwise stated.
All ¾ Ton and 1 Ton Pickups	150 days ARO, unless otherwise stated.
All Van Wagons (Cargo & Passenger)	150 days ARO, unless otherwise stated.
All Utility Vehicles	150 days ARO, unless otherwise stated.

- a. Any and all units may be delivered on or before the agreed dates. The State, relying on these delivery dates, will incur an unknown, difficult, or impossible-to-determine amount of damages should delivery be delayed. Damages may include, but are not limited to, payment of fees for personal use of vehicles, rental vehicles, and additional staffing requirements.
- b. Where the vendor is unable to meet the required maximum delivery requirements, the vendor shall advise Jeannie Lake, State Procurement Bureau at 406-444-0110, of the estimated delivery date, whereupon the State may cancel the applicable order, in whole or in part, without cost or liability on the part of the State to the vendor.

Should the State choose to accept the late delivery, in lieu of actual damages, the vendor shall pay the State as fixed, agreed, and liquidated damages and not as a penalty, the amount of \$50.00 for each State work day (Monday through Friday, excluding State holidays). This amount is the State's best estimate of a replacement vehicle to cover costs incurred by the State due to the vendor's failure to deliver.

Unless requested by the ordering agency, temporary registrations are not to be issued.

The dealership must fill out the MV1 in its entirety, including: vehicle make, model, year, and VIN.

All title information must be filled out to the best of the vendor's ability.

HYBRID SEDANS
GROUP 1 - COMPACT FOUR-DOOR SEDAN – 100.4”-106.3” WB
HYBRID (GAS/ELECTRIC)

Minimum Standard Specifications: Manufacturer's current model front wheel drive, compact four-door sedan. Passenger and luggage volume is 100-109 cubic feet.

Standard equipment as listed under 10.0 - General Specifications, with the following additions:
